### SUMMARY

I am a passionate Developer with in-depth experience in modern technologies including JavaScript, React.js, Node.js, AngularJS, jQuery for Web Applications and React Native for building high-performance mobile applications for Android and iOS. I specialize in creating responsive, scalable solutions using Redux Toolkit for state management, TypeScript for robust code and Firebase for real-time data handling and authentication. Proficient in integrating RESTful APIs and managing databases with SQL, I thrive on delivering innovative solutions in dynamic environments.
